CS 488 Briefings

Submit a PDF presentation that supports whatever each of you is going to present in the briefing. Given the 15 minutes available and four members on most teams, your individual contribution should be about three minutes. Everyone needs to present, and *everyone needs to be present*. There is a grade penalty for unexcused absences.

Be sure to use the correct schedule. We are trying to alternate the order of teams to balance the timing. The lecture schedule on Shelby shows which briefing schedule to use.
